

## Where to find the Full Story

### The Short Story (pp. 1-2)

#### Section 1 History of Regulation (pp. 3-55)

1. Inclusion in the Kwinana Industrial Area (pp. 4-6)
2. Rezoning of rural land for residential development (pp. 6-8)
3. Extending the working life of the Premises after its on-site limestone quarries became exhausted, by permitting it to extract shell sand from Cockburn Sound (pp. 8-9)
4. Failure to remove the Premises from KAW when its activities became incompatible with nearby residential development (pp. 9-12)
5. Preventing a review of polluting activities at the Premises by the EPA (p. 12)
6. Allowing unregulated expansion of production and consequent air pollution at the Premises (pp. 12 -14)
  - 1.6.1 Pollutant Emissions (pp.14-29)
    - Ammonia (p. 14) Antimony (p. 14) Arsenic (p. 14) Benzene (p. 15)
    - Beryllium (p. 16) Cadmium (pp. 16-17) Carbon Monoxide (p. 17)
    - Chlorine (p. 18) Chromium (pp. 18-19) Cobalt (p. 19) Copper (pp. 19-20)
    - Fluorine (p. 20) Lead (p. 21) Manganese (pp. 21- 22) Mercury (p. 22) Nickel (p. 23)
    - Oxides of Nitrogen (p. 23) Particulate Matter (p. 24) Polycyclic aromatic hydrocarbons (p. 25) Selenium (p. 25) Sulphur Dioxide (p. 26)
    - Volatile Organic Compounds (p. 26-28)
    - Polychlorinated dioxins and furans (p. 28) Zinc (p. 28-29)
7. Failing to effectively use powers of regulation and enforcement under the EP Act to prevent nuisance to nearby residents from toxic gases, odours and particulates (pp. 30-34)
8. Failing to effectively use powers of regulation and enforcement to prevent adverse health effects to nearby residents from CCL's pollution (pp. 34-36)
9. Failing to fully and properly implement Inquiry recommendations (pp.36-48)
  - 9.1 Recommendation 2 (pp. 37-40)
  - 9.2 Recommendation 10 (pp. 40-42)
  - 9.3 Recommendation 20 (pp. 42-45)
  - 9.4 Recommendation 22 (pp. 45-47)
  - 9.5 Recommendation 23 (pp. 47-48)
10. Failure to adequately consider the health impacts of air pollution from the Premises upon local residents and their children (pp. 48-55)

#### Part II The Pollutants (pp. 56-85)

- 1.0 Data Sources on CCL's Pollution (pp. 58-59)
  - 1.1 Data required to be supplied to, and published by, the National Pollution Inventory (p. 56)
  - 1.2 Data acquired from the 2016 Decision Report by DER/DWER (p. 57)
  - 1.3 Substances identified in samples of materials used at the Premises (p. 57)
  - 1.4 Elements known to be in Australian coal (or coal generally) but not tested in the coal used at the Premises (p. 57)
- 2.0 Toxic gases (pp. 57-73)
  - 2.1 Sulphur Dioxide (pp. 57-59)
  - 2.2 Carbon Monoxide (p. 59)
  - 2.3 Carbon Dioxide (pp. 59-60)
  - 2.4 Oxides of Nitrogen (p. 61)
  - 2.5 Hydrogen Chloride/Hydrochloric Acid (pp. 62-63)
  - 2.6 Hydrogen Fluoride (pp.63-64)
  - 2.7 Volatile Organic Compounds (pp. 64-73)
    - 2.7.1 Dibromoethane (pp. 65-66)
    - 2.7.2 Toluene (methylbenzene) (p. 66)
    - 2.7.3 Xylene (p. 66)

- 2.7.4 Benzene (p. 66)
- 2.7.5 Cumene (1-methylethylbenzene) (p. 67)
- 2.7.6 Acetaldehyde (p. 67)
- 2.7.7 Acetone (p. 67)
- 2.7.8 1,3-Butadiene (vinyl ethylene) (p. 67)
- 2.7.9 Dichloromethane (methyl chloride) (p. 68)
- 2.7.10 Ethylbenzene (p. 68)
- 2.7.11 Ethylene Glycol (1,2-ethanediol) (p. 68)
- 2.7.12 Formaldehyde (methyl aldehyde) (methanal) (pp. 68-69)
- 2.7.13 Methyl Ethyl ketone (Butanone) (p. 69)
- 2.7.14 Methyl isobutyl ketone (p. 69)
- 2.7.15 Phenol (p. 69)
- 2.7.16 Styrene (ethenylbenzene)(vinylbenzene)(phenylethene) (p. 70)
- 2.7.17 Trichloroethylene (p. 70)
- 2.7.18 Creation of VOCs (pp. 70-71)
- 2.8 Polycyclic Aromatic Hydrocarbons (pp. 71-72)
- 2.9 Polychlorinated dioxins and furans (pp. 71-72)
- 3.0 Particulates (pp. 74-84)
  - 3.1 Coal dust (pp. 74-75)
  - 3.2 Portland Cement (pp. 75-77)
  - 3.3 Quicklime, shell sand and Lime Kiln Dust (pp. 77-79)
  - 3.4 Baghouse filters and particulates (pp. 80-81)
  - 3.5 Particulates carrying heavy metals (pp. 81-84)
- 4.0 Wastewater (p. 85)

### **Section 3 The Health Effects of the Pollutants** (pp. 86-123)

- 1.0 Toxic Gases (pp. 86-101)
  - 1.1 Sulphur dioxide (pp. 86-88)
  - 1.2 Carbon monoxide (pp. 88-90)
  - 1.3 Carbon dioxide (p. 90)
  - 1.4 Oxides of nitrogen (pp. 90-92)
  - 1.5 Hydrogen chloride/Hydrochloric acid (p. 92)
  - 1.6 Hydrogen fluoride (pp. 92-93)
  - 1.7 Volatile organic compounds (pp. 93-99)
    - 1.7.1 Dibromoethane (p. 93)
    - 1.7.2 Toluene (pp. 93-94)
    - 1.7.3 Xylene (p. 94)
    - 1.7.4 Benzene (pp. 94-95)
    - 1.7.5 Cumene (1-methylethylbenzene) (p. 95)
    - 1.7.6 Acetaldehyde (pp. 95-96)
    - 1.7.7 Acetone (p. 96)
    - 1.7.8 1,3-Butadiene (vinyl ethylene) (p. 96)
    - 1.7.9 Dichloromethane (methyl chloride) (p. 97)
    - 1.7.10 Ethylbenzene (p. 97)
    - 1.7.11 Ethylene Glycol (1,2-ethanediol) (pp. 97-98)
    - 1.7.12 Formaldehyde (methyl aldehyde) (methanal) (p. 98)
    - 1.7.13 Methyl Ethyl Ketone (Butanone)(p. 98)
    - 1.7.14 Methyl Isobutyl Ketone (p. 98)
    - 1.7.15 Phenol (pp. 98-99)
    - 1.7.16 Styrene (ethenylbenzene)(vinylbenzene)(phenylethene) (p. 99)
    - 1.7.17 Trichloroethylene (p. 103)
  - 1.8 Polycyclic Aromatic Hydrocarbons (p. 100)
  - 1.9 Polychlorinated dioxins and furans (p. 101)
- 2.0 Particulates (pp. 101-123)
  - 2.1 Carbon particulates (p. 101)
- 3.0 Heavy metals in coal (pp. 101-122)
  - 3.1 Antimony (p. 103)

3.2	Arsenic (pp. 103-4)
3.3	Barium (p. 104)
3.4	Beryllium (p. 104)
3.5	Bismuth (p. 105)
3.6	Boron (pp. 105-6)
3.7	Cadmium (p. 106)
3.8	Cesium (Caesium) (pp. 107-7)
3.9	Chromium (pp. 107-8)
3.10	Cobalt (p. 108)
3.11	Copper (pp. 108-9)
3.12	Fluorine (pp. 109-10)
3.13	Lead (pp. 110-12)
3.14	Lithium (p. 112)
3.15	Magnesium (pp. 112-13)
3.16	Manganese (pp. 113-14)
3.17	Mercury (pp. 114-15)
3.18	Molybdenum (p.115)
3.19	Nickel (pp. 115-16)
3.20	Selenium (p. 116)
3.21	Strontium (p. 117)
3.22	Sulphur (pp. 117-18)
3.23	Thorium (pp. 118-19)
3.24	Titanium (pp. 119-20)
3.25	Uranium (p. 120)
3.26	Vanadium (pp. 121-22)
3.27	Zinc (p. 122)
4.0	Other Metals in CCL's Portland cement clinker dust (pp. 122-23)
4.1	Aluminium (pp. 122-23)
<b>Section 4 The Complaints</b> (pp. 124-55)	
1.0	2010 Inquiry Report (pp. 124-143)
1.1	Report commentary on 'dust' (pp. 124-33)
1.2	Report commentary on 'odours' (pp. 133-38)
1.3	Report commentary on impact on amenity (pp. 138-40)
1.4	Report commentary on impact on health (pp. 140-42)
1.5	Report commentary on impact on the natural environment (pp. 142-43)
1.6	Results of the Inquiry (p. 143)
2.0	Complaints about the Premises in the period 2016-2020 (pp. 143-54)
2.1	Impacts on Lifestyle (p. 144)
2.2	Impacts on Health (pp. 144-52)
2.2.1	Reported symptoms in children (pp. 145-47)
2.2.3	Reported symptoms in adults (pp. 147-52)
2.3	Symptoms associated with toxic gases and particulates emitted by the Premises (pp. 152-61)
2.3.1	Respiratory and nasal symptoms (p. 152-53)
2.3.2	Throat symptoms (p. 153)
2.3.3	Eye symptoms (p. 153)
2.3.4	Skin symptoms (p. 153)
2.3.5	Neurological/psychological symptoms (pp. 153-54)
2.3.6	Other symptoms (p. 154)
3.0	Conclusions (pp. 154-55)
<b>Setion 5 The Tests</b> (pp. 156-196)	
1.0	Odours (pp. 157-160)
1.1	Action to regulate odours (pp. 157-59)
1.2	Community Appeal (pp. 159-60)

- 2.0 Dust Events (pp. 160-68)
  - 2.1 Proof of 'fugitive' dust emissions (pp. 160-65)
  - 2.2 Dust Tests (pp. 160-65)
    - 2.2.1 2016 Tests (pp. 160-61)
    - 2.2.2 2017 Tests (pp. 162-63)
    - 2.2.3 2018 Tests (pp. 163-65)
  - 2.3 Community Response to Dust Tests (pp. 165-66)
  - 2.4 Results of DWER Tests in 2019 (pp. 166-68)
- 3.0 2019/2020 Hair Tests (pp. 168-96)
  - 3.1 Hair Test 1 (pp. 169-71)
  - 3.2 Hair Test 2 (pp. 171-73)
  - 3.3 Hair Test 3 (pp. 174-75)
  - 3.4 Hair Test 4 (pp. 176-78)
  - 3.5 Hair Test 5 (pp. 178-80)
  - 3.6 Hair Test 6 (pp. 180-82)
  - 3.7 Hair Test 7 (pp. 182-83)
  - 3.8 Hair Test 8 (pp. 184-85)
  - 3.9 Hair Test 9 (pp. 186-88)
  - 3.10 Hair Test 10 (pp. 188-89)
  - 3.11 Hair Test 11 (pp. 190-92)
- 4.0 Analysis of Test Results (pp. 192-96)

**Section 6 The Actions required** (pp. 197-216)

- 1.0 To require CCL to stop burning coal at the Premises (and preventing all polluting industries from doing so in the City of Cockburn in the future). (pp. 197-98)
  - 1.1 The decision to burn coal (pp. 198-204)
  - 1.2 The price of coal (pp. 204-5)
  - 1.3 The price of gas (p. 205)
  - 1.4 Competition (p. 205)
  - 1.5 Termination of CCL's existing coal contract (pp. 205-6)
  - 1.6 Reduction in emissions (pp. 206-7)
- 2.0 Remove all coal stockpiles and remediate those areas (p. 207)
- 3.0 Cover lime kiln waste dumps and shell sand stockpiles to prevent dust becoming airborne (pp. 207-8)
- 4.0 Fully enclose the Portland cement grinding, screening and mixing operation to prevent cement dust escaping into the community (pp. 208-10)
- 5.0 Reduction of sulphur and chlorine kiln inputs (p. 210)
- 6.0. Install pollution abatement technology (pp. 210-13)
- 7.0 'Legislative' matters (pp. 213-16)
